

**Corinthian Yacht Club  
Trap Shooting Program  
Range Rules**

All shooters requiring range access including members and guests must be registered with CYCT and must sign a liability waiver and safety agreement prior to shooting at CYCT

All shooters **MUST** wear eye and ear protection on the firing line and everyone in the vicinity of gunfire is strongly advised to wear ear protection

All new shooters to the club range notwithstanding membership status **MUST** be accompanied by a CYC Trap accredited and qualified new shooter mentor who is a signatory to the new shooter mentor qualifying affidavit and who has signed the CYC Trap New Shooter Mentor Agreement form for that new shooter on and/or for the shoot date.

The consumption of alcohol and/or intoxicating drugs is not permitted for shooters and any such consumption and/or use will disqualify any shooter for the balance of the day

All guns **MUST** have the action open and contain **NO** live shell or empty shell except when the shooter is on the live firing line. The gun action may be closed when in the gun rack but shall not contain a live or empty shell.

Shooters may put a live shell in their gun **ONLY** when on the firing line and the range is live.

Shooters may close the action on their live shell loaded gun **ONLY** when it is their turn to shoot and **ONLY** with the barrel pointed into the live firing range and **NEVER** with the barrel pointing anywhere else including in the barrel down resting position.

Any gun with its action closed **MUST** be considered to be loaded with a live shell or shells and handled accordingly excepting those occasions which require the action being closed and then only with all participants vocally in agreement as to its safety status.

All shooters and gun handlers shall be responsible for never pointing a gun at anyone including when carrying the gun on one's shoulder pointing behind the person carrying the gun

A patterning board may be set up when trap rounds are not in progress and that firing line **MUST** be cleared and determined to be unpopulated prior to going live with patterning action

Shooting staff must declare the range **CLOSED** prior to entering the range to service the trap house and remain observant, mindful and vocal when exiting the trap house i.e. "CLEAR"

(Who is responsible for closing the range due to boaters entering restricted area? What exactly is the restricted area?)

All shooters are range safety personnel and any shooter who sees an unsafe act or condition has a duty to report or stop the offending action or condition

All shooters are responsible for NEVER placing their trigger finger inside the trigger guard of their live shell loaded and closed action gun until they are ready, willing and able to safely discharge the weapon into the range.
